

Wortham Primary School Weekly Newsletter

24th November 2023

Eco Award!

Huge congratulations to Miss Stevenson and the Eco Council for achieving the Green Flag Award 2023. The children on the Eco-council should be very proud of all their hard work and dedication to making improvements to our school and environment. We will be proudly displaying our award plaque in the front foyer.

The following quote is from the Eco-school Team, "**your application shows that young people in your school are aware of environmental issues and committed to being active and creating positive change.**"

Miss Stevenson and the eco council will be continuing their journey to improve our school and environment and will keep us updated along the way.
